MORE LIGHT ON BROWN'S LOVE

Flagg, His Affinity,
Brings Lots Of
Trouble

The San Luis Obispo Tribune of
Dec. 3 has the following to say in
regard to Embert M. Brown, well
known in Honolulu:

"Could you grow fond of a nice
young blonde
If you loved sweet brunettes?"

Ask that question of Embert M.
Brown of Santa Cruz. He is worried
about the situation just now and is
on his way home to the seaside town
to face the law and an irate wife at
the same time.

At an early hour yesterday morning
Deputy Sheriff Charles J. Taylor
and Policeman Hunsaker took Brown
and a seventeen year old affinity of
his from a south-bound train. They
were armed with tickets to San
Diego and it was a flight such as so
often occurs when affinities become
a fascination.

The Sheriff's office was notified
by the Santa Cruz officers to keep a
lookout for Embert M. Brown and
the young girl, named Miss Ora
Flagg, a winsome young dame who
had left her home, one of the well-
known families of Santa Cruz.

The officers boarded the train here
and soon located the wayward pair
and escorted them down town to the
county jail, where they waited ad-
vice being sent to their homes.

Brown has a wife and several
children in Santa Cruz. He is a
real estate agent and notary public
of that place, and up to this time
has always borne a good reputation.
An affinity came between him and
his duly wedded wife, and he
thought it would be better to flee
with her. In Santa Cruz it would
be better "were the other dear
charmer away." So Brown and Miss
Flagg slipped quietly out of the sea-
side town with tickets for San
Diego. They did not go far. Their
journey came to an end at San Luis
Obispo, and they got free lodging in
the county jail.

Yesterday afternoon Sheriff Traf-
ton of Santa Cruz county arrived
and took Brown and Miss Flagg
back to Santa Cruz on the next
train.

Mr. Flagg accompanied Sheriff
Trafton to this city and when he
espied Brown at the depot he made
an effort then and there to take out
his wrath upon the man who had
brought sadness to his home. Sher-
iff Trafton interfered and the party
boarded the train for the homeward
journey. It is a pity that Mr. Flagg
did not have the chance to tan
Brown's hide good and plenty.

The girl is a pretty young miss of
only seventeen summers. She is now
sorry that she took the step she did,
and when she gets home she may be
forgiven by her irate parents. As
for Brown the advice from Santa
Cruz are to the effect that he will
get all the law will allow him. And
he deserves it.

SURVEY OF KAUAI

Lihue, Dec. 11.—A. Knudsen and Mr.
Martin of the Federal Topographical
Survey arrived from Honolulu Wed-
nesday morning on the Kinau and
went up to the mountains on the same
day to inspect the flow of the head
waters of the upper tributaries of the
Waimea valley, for the purpose of
making complete topographical maps
of the whole island.

The first part of next week they will
make visits to the Hanalei and Han-
apepe valleys, and after they finish
these they will go to Hawaii and Maui
to make similar tours of inspection.
They are carrying out the plan of
Geographer Marshall, made on his re-
cent visit to the islands.

The next step will be to make a
thorough survey of the whole Terri-
tory and put in measuring gauges to
find the exact flow of the water in the
mountains of the Territory, which lat-
ter work has been going on for the
greater part of this year.

Mr. Martin is in charge of the ac-
tive work of topographical survey and
water development in the Territory.—
Garden Island.

PERFECT PHOTOGRAPHING

When you want photographs that
are real likenesses pose for your pic-
ture at the M. K. Henry Gallery on
Hotel street opposite the Art Theater.
Enlargement work done. Also print-
ing and developing.

Chicago capitalists are behind a
company to build a \$250,000 motor
speedway for that place under the
guidance of David Beecroft, chairman
of the Technical Committee of the Chi-
cago Motor Club.

Furniture for Christmas Gifts

We are showing the largest line of FURNITURE and FURNITURE
NOVELTIES ever brought to Honolulu for a Christmas season.

Make your Christmas gift to friends or relatives something which will combine both beauty and utility. This result
can be attained by purchasing furniture.

Every item in a furniture store would make a good Christmas gift.

We show the largest and best line of goods in the islands.

FORT DE RUSSY ITEMS

Fort De Russy is busy in prepara-
tion for the Christmas holidays, ar-
rangements for which have been un-
der way for the past fifteen days.
On account of the strenuous work
upon which the engineer troops have
been engaged since their arrival on
the island, it has been planned to
give them all the enjoyment that is
possible during the holidays. New
iron bedsteads, which were received
on the transport Logan, have been
placed in all the tents and arrange-
ments made with the quartermaster
department to bring all the baggage
of the detachments in from the field.
Tickets for all the leading theaters
and other attractions in Honolulu
have been arranged for and a
splendid time in every respect pre-
pared for the members of the en-
gineers who will visit the camp from
the survey detachments.

Local Supplies.
Since the arrival of the engineers
at Honolulu the amount of local pur-
chases made by them has been very
large, and before their departure
will extend into many thousands of
dollars. A few of the items will be
of interest to the citizens of Honolu-
lu and the island of Oahu generally.
Shipments of freight to the five sur-
vey detachments at various points
throughout the island are made
every day on the Oahu Railroad &
Land Company's trains. An average
of fifty tickets are purchased month-
ly for the men going to and from
these detachments, while as a rule
at least 500 street car tickets are
used a month by these troops. Most
of the construction supplies used,
not only by the engineers in camp,
but also in the building of the forti-
fications at Fort De Russy are pur-
chased from local merchants.

Entertainment.
The entertainment which has
been arranged for the evening of
Dec. 23 is rapidly assuming large
proportions. First Sergeant Arthur
Spencer has completed the necessary
arrangements for the appearance of
the Hawaiian National band for the
evening and with the best talent
from the states which are now in
Honolulu. The members of the com-
pany will give a musical comedy,
with vaudeville numbers and mus-
ical specialties. A large seating ca-
pacity has been arranged, and it is
expected that many visitors from
Honolulu and other military posts
will be present that evening.

Camp Details.

Private Fred Rassat and Leo J.
Ruddy, the civilian blacksmith of
the post, will leave camp today, by
authority of special orders from
headquarters Fort De Russy, for a
trip to the detachments at Lihue and
Pearl City. While there they
will shoe all the animals so that
they will be in condition for work
upon the return of the detachments
from this camp after the holidays.
These men will be back to this camp
on Dec. 22. Private Hammond has
been placed on duty as musician in
the place of Musician McElroy, who
has been sent to the hospital.

At Transport.

A large number of the engineers
were at the dock at the sailing of
the transport Logan yesterday in
order to bid farewell to the former
members of Company A, First Bat-
talion of Engineers, who are now
with the second cavalry. These men
have been visitors at the Fort De
Russy camp while the transport was
in and have left many friends be-
hind. All of them stated that Hon-
olulu was the best place they have
soldered in, but that the twenty
per cent and double time for service
in the islands was what induced
them there.

To Lihue.

First-Class Sergeant Albert Fisher
of the hospital corps stationed at
Fort De Russy has been ordered by
headquarters, Department of Califor-
nia, to the cavalry camp at Lihue for
permanent station. Sergeant
Fisher has been at Fort De Russy
since the camp was first opened, and
it is with much regret that his many
friends hear of his order for depart-
ure.

TO MAKE FULLEST TEST OF WIRELESS

BOSTON, December 5.—The scout
cruiser Salem, which, with the Bir-
mingham, is equipped with the most
elaborate wireless outfit ever placed
aboard an American war vessel, to-
day sailed from the Charlestown
Navy Yard on a cruise of thousands
of miles through tropical seas and
Arctic ice floes for a thorough and
complete test of wireless telegraphy
under all conditions. The Birming-
ham is expected to follow soon.

The tests will extend over four
months and the specifications call
for sending and receiving messages
at least 1000 miles under all condi-
tions and 3000 miles under favorable
conditions.

PROBABLE HEAD OF

TELEGRAPH MERGER

THEODORE N. VAIL

It was Theodore N. Vail, president
of the American Telephone & Tele-
graph Company, who announced the
new billion dollar merger of the tel-
ephone and telegraph companies of
the country, and it is believed that
he will head the big combination
when all the details of the merger
are completed. Mr. Vail has been
in the telephone and telegraph busi-
ness nearly all of his life. One of
his uncles was the principal backer
of Morse, the inventor of the tele-
graph as now operated. Mr. Vail
is a native of Ohio and in his boy-
hood lived on a farm in Iowa.

After making his way, penniless,
three-quarters around the globe to San
Francisco on a wager, Alphonse Ver-
gonne may have to go back the same
route unless the French Ambassador
at Washington can stay the hand of
the immigration authorities of the
port.

HOW NORTH POLE LOOKED TO PEARY

Mr. Peary, of North Pole fame
gave a very interesting lecture re-
cently, regarding conditions as he
found them "way up North." During
his talk he gave much credit to the
members of his party. In describ-
ing his feelings when, as he said,
he had reached the goal of his am-
bition, Commander Peary declared
that the conditions were very com-
monplace, and that they were the
same as they had been experiencing
for days before. There were no new
unusual sensations for the eye or ear
to detect, except only that the sun
moved parallel with the horizon. "It
was a feeling," declared Commander
Peary, "that at last after twenty-
three years in which I had thrown all
of my mental and physical energy,
more or less of personal sacrifice,
and that in spite of every financial
and other difficulties, I had made
good to myself, my friends and the
flag of my country."

LEARN TO ADVERTISE

A duck which stuck faithfully
to business during the summer
and laid several dozens of large
fawn-colored eggs complained
that she wasn't appreciated. "See
that hen over there," said the
duck; "she has not laid as many
eggs as I have, nor as big, but
she has books written about her
and verses composed in her hon-
or, while nobody is saying a word
about me."
The trouble with you is," said
the wise old rooster that was
standing near, "that you don't tell
the public what you have done.
You lay an egg and waddle off
without saying a word, but that
sister of mine never lays one
without letting everyone in the
neighborhood know about it.
"If you want to cut any ice in
this community you must learn
to advertise."
